

WIN

Welsh Institute of NeuroLinguistic Programming Sefydliad Cymreig RhNI

I currently offer a Practitioner Certification Level course, based in Cardiff. It is a home study pack, (about 40 hours of study, instead of but equal to 20 days of workshops!) plus 1-2-1 tuition sessions as required in combination in Cardiff. The pack is offered on an External Hard Drive plus the workbook.

The advantages to you;

- 1 This is VERY, cost effective, you could get to Certification for under £600!!.
- 2 Also it maximises your flexibility in the use of your study time.
- 3 In tuition sessions we focus on your needs and uses for the programme. I suggest 6 sessions but can be more or less by agreement. Sessions are an hour and a half each. Arranged to suit you.
- 4 This saves time and money on attendance at weekends away. One client estimated it saved him about £1500!!
- 5 You learn at your speed and can go over material as often as you like as you progress. Workshops away often pass too quickly and the experience is not revisitable.
- 6 You will have a more comprehensive depth in NLP in the end at Certification.
- 7 You can start right away, or when you are ready; no need to book precious time too far ahead. You proceed, "a votre gre", at your own pace.

OVERVIEW

The course is in three parts;

Part 1 The course audio-visual material on an external hard drive, this contains (the equivalent of) 38 DVD's of edited 20-day workshop instruction. Superfluous material has been edited out. This is over 40 hours of input. There are 10 sections. Each section has:

- i Framing, to prepare your conscious and unconscious for the material,
- ii Demonstration, of the skill set being taught in the section,
- iii Exercise, referenced to the manual to allow you to see and practice.
- iv Review, group discussion on learning and tips from trainers, Q&A style.

Part 2 The course manual, describes the course and guides with respect to content. It also has useful sections on NLP terms and addenda to the course.

Part 3 Six sessions 1-2-1 mentoring and coaching, to instil passion, motivation and understanding of NLP. Sessions last 90 minutes, focusing on your own goals, aims and uses of NLP. The sessions are in Cardiff on dates arranged by agreement. More sessions can easily be arranged.

The next thing you need to do is contact me to arrange the first session date when you pick up the Drive, Manual of the Course, and have your first session. The cost is £300 for the Drive and Manual, and £300 for the 6 sessions. From time to time I will give you MP3 CD's to listen to for relaxation and development free of charge. I will suggest reading material.

**Please either call to discuss, 02920225066, or get back to me with your interest.
